Delivery

The mats, which have been put together professionally by our specialised laundries, are delivered to you in compliance with our principles of timeliness, cleanliness and reliability.

Exchange service

The mats are exchanged at regular, individually agreed intervals. We take care to ensure that your mats are in the right place at the right time. Our service employees have a mat map for each customer.

Sustainability

Professional cleaning is the basis for many of the advantages offered by the rental mat system, using processes that are in line with today's most up-to-date standards for hygienic and sustainable cleaning.

A mat can be washed up to 80 times before it needs to be replaced.

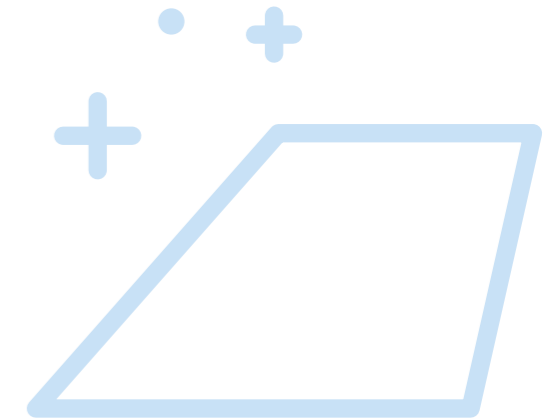

Premium mats

Protection, safety and cleanliness.

Impressive look and top quality.

Improving the look of your rooms and keeping the floors clean. Wherever it is placed, the mat shows what it can do. Our premium mats are far superior in quality to conventional dust control mats. Fitted with a non-slip nitrile rubber bottom and special fibres to ensure the perfect cleaning and capillary action, the mats are robust, durable and attractive.

Premium mats are available in various standard sizes and in three colours

Simple business sense.

1m² mat surface absorbs approx. **3 kg** of dry dirt and absorbs about **4 litres** of moisture. Delivering an extra level of cleanliness and safety.

The mats catch **80%** of direct dirt – a degree of quality possible only thanks to the use of high-twist nylon fibres. These special fibres create a very large surface area and deliver optimum brushing action. The dirt is collected out of sight at the bottom of the mat. The washing service ensures that the mat is thoroughly spotless.

Design mats

First impressions matter.

Colour mat design

We have 40 colours for you to choose from and we can also serve highly individualised colour requests in any RAL or PANTONE tone. These mats have premium quality, delivering both cleanliness and safety across the board.

Logo mat design

Whether carrying a company logo or special design – this premium quality mat is made just for you. Cleanliness and a personalised design: the perfect combination for your welcome or advertising message.

State-of-art Jet-Print™ technology.

Our design mats can carry individualised logos and messages and are very effective at trapping dirt. Choose from a range of 44 colours and create your very own design. We'll help you here.

Opting for design mat enables you to make a real statement and leave a good impression on your customers.

Turn unused floor space into a platform for messages or advertising to create a unique atmosphere.

Freestyle mat design

We can make you a unique mat, whether it is in the shape of a diamond, circle or rhombus, helping you convey a professionally styled advertising message.

Ergonomic. Practical.

Ergonomic Plus is a durable nitrile rubber mat with an excellent grip on the floor, which at the same time provides relief for muscles and joints. The foamed rubber core creates an anti-fatigue effect, while the robust rubber surface ensures secure footing.

The additional **Ergonomic Plus Safety** model was developed to specifically label potentially hazardous areas. The yellow band around the edge of the mat increases its visibility and, as a result, the potentially hazardous areas.

Versatile & individual.

Mats serve different purposes and tasks. **Anti-fatigue mats** are a valuable support for standing workstations, bring demonstrably positive ergonomic effects.

When played in outdoor areas, **outdoor mats** ensure that coarse dirt, fine dust and moisture do not enter the building in the first place. **Mats** from SALESIANER provide an individual flair or place design messages with striking accuracy.
